

## **School Closure**

### **Inclement Weather**

During the winter months it is prudent that we are aware of the possibility of bad weather and what it will mean to the school.

School closure is a significant decision and one that the Head Teacher and Local Authority seek to avoid, however, decisions have to be made in light of local weather and having sufficient staff able to travel to school to provide safe care for the children.

It is important for the school to have in place a contingency plan and share with parents how the decision to close the school will be made and effectively communicated.

### **Reporting to parents**

School will endeavour to advise parents of closure as soon as possible via the following communication systems:

- Text message
- Website: [www.parkviewprimary.com](http://www.parkviewprimary.com)
- Local radio station announcement on Key 103
